## Professional Summary

Quality & Inspection Engineer with 2.7+ years of experience in Inspection & Quality Assurance, specializing in MIS reporting, PDI quality clearance, inspection data analysis, and cross-functional coordination. Strong experience in Excel-based analytics, KPI tracking, QA metrics, and data validation with working knowledge of SQL, Python, and Power BI.

## Professional Experience

**Lead Engineer – Electrical | Inspection & Quality Assurance | Tata Power Southern Odisha Distribution Limited**

- Analyzed monthly, quarterly, and annual QA MIS data to track inspection volume, rejection trends, clearance turnaround time (TAT), and quality performance.
- Prepared management MIS reports ensuring data accuracy, consistency, and traceability.
- Performed PDI quality clearance by validating inspection data before unblocking material from stores to users.
- Monitored pending quality clearance stock and identified delays to reduce material blockage.
- Coordinated with Stores, Users, and QA teams to resolve inspection discrepancies.

## Key Metrics Handled

Inspection Volume | Clearance TAT | Pending vs Cleared Stock | Rejection Trends | QA Compliance

## Technical Skills

Excel (Advanced), Power Query, SQL, Python (pandas), Power BI, KPI Tracking, Quality Metrics, Data Validation, Root Cause Analysis

## Projects

- **Machine Learning Based Temperature Monitoring System** – Python regression, anomaly detection, predictive analytics.
- **Restaurant Review Sentiment Analysis** – NLP, Python, Streamlit.
- **Startup Profit Prediction** – EDA, Multilinear Regression using Python.

## Education

**B.Tech – Electrical & Electronics Engineering | BIT Mesra, Ranchi | CGPA: 7.54/10.00**
